EXPERIENCE

Student Assistant — International Admissions | California State University, Sacramento

International Programs and Global Engagement (IPGE) • Sacramento, CA • Approx. 2023–Aug 2026

- Supported prospective and current international students across application, document, checklist, account, registration-hold, and next-step questions while maintaining a calm, professional service experience.
- Applied nearly three years of institutional knowledge to explain admissions requirements, identify missing official records, and help students navigate time-sensitive processes.
- Created and refined Slate queries and checklist logic for transfer and first-time freshman populations, helping staff identify outstanding official documents and pre-admission requirements.
- Drafted and improved applicant communications for Spring 2027 undergraduate and graduate applicants, including SacLink setup, document submission, portal monitoring, and deadline guidance.
- Troubleshoot tracking-link and message-content issues, reviewed dynamic fields, and translated technical findings into usable fixes for operational communications.
- Collaborated with supervisors and colleagues on escalated student matters; documented complex interactions clearly and supported continuity of front-office operations.

EDUCATION

[DEGREE / MAJOR] | California State University, Sacramento

[Expected graduation date] • Add relevant coursework, GPA, honors, or certifications if applicable

SELECTED PROJECTS

A portfolio of admissions technology, communications, data, and digital experience

01

Slate Transfer Checklist Query

Slate CRM • Query building • Checklist logic

Built and debugged a query for transfer applicants that surfaced checklist items such as Pre-Admission Information and AP Scores, with item prompt values, unique IDs, status, and descriptions for staff review.

02

First-Time Freshman Outstanding Documents Query

Slate CRM • Population logic • Data validation

Adapted the transfer-query workflow for first-time freshmen and investigated blank “Outstanding FTF Official Documents” output to improve population and field logic.

03

Personalized Transcript Requirement Communication

Dynamic content • Student communications

Designed student-facing messaging that tells each applicant which individual transcript is still required and explains two accepted methods for submitting official documents.

04

Spring 2027 Applicant Journey Emails

Admissions communications • UX writing

Refined undergraduate and graduate application-submission messages covering SacLink creation, My Sac State access, document deadlines, uploads, and ongoing portal/email monitoring.

05

Tracking-Link & Message QA

Troubleshooting • Content operations

Reviewed tracking-link behavior and message formatting, identifying issues that could interrupt the applicant journey and improving clarity and reliability.

06

Futuristic Technology Agency Website

Three.js • WebGL • GSAP • ScrollTrigger

Designed an immersive concept site with 3D digital landscapes, particle systems, cinematic camera motion, oversized typography, sci-fi gradients, and performance-conscious interactive storytelling.

07

Admissions Process Documentation

Process design • Knowledge sharing

Created reusable step-by-step guidance for building new Slate queries from existing work, helping turn one-off troubleshooting into repeatable team knowledge.

TECHNOLOGY & TOOLS

Admissions & CRM: Slate CRM, query configuration, checklist logic, dynamic fields, applicant communications

Data & productivity: Microsoft Excel, data review, workflow documentation, quality assurance

Web: HTML, CSS, JavaScript, Three.js, WebGL, GSAP, ScrollTrigger, GitHub

Professional: Cross-cultural communication, issue documentation, process improvement, frontline student support
